# Sign Up

To register for the WIKI read the rest of this page first, then click the subtle button at the bottom…

The registration process is not automatic, to ensure that only our staff have access.

When you register Jack or Drew will receive an email informing us, and we'll authorise your access.

When you decide to register please make your username something simple, for example `drew-holmes`. Email addresses shouldn't be used, as the Wiki engine will replace the @ symbol with a - to confuse you!

> ℹ️ You can click on our Logo (Top left) to get back to the start page.
